EXPERIENCE

Eaton, Pittsburgh, PA

User Experience Intern (Summer 2018)

- User-studied, designed, iterated, and delivered, as lead designer, a human-machine touchscreen interface for a commercial light switch; final design was enthusiastically endorsed by the client.
- Built data visualization libraries for internal design language system.

User Experience Intern (Summer 2017)

- Conducted user studies; Storyboarded, designed, prototyped and implemented a website on my own initiative.
- Learned agile management, design critiques, and interpersonal communications. Became adept with studio collaborative culture.

Carnegie Mellon University, Pittsburgh, PA

Research Assistant, Dependable System Lab, Computer Science
Department (Spring 2016 - Summer 2017)

- Led a group to apply data science with machine learning to help diagnose balancing problems in recovery from orthopedic surgery.
- Reconstructed a stress-inducing software package for laboratory use; work was deployed for NSF research grant.
- Provided opinions from a designer’s perspective, and learned to communicate with engineers.
- Consistently recommended by Professors.
